

Specifications

Robust, basic multifunctional mechanical operation table with 4 sections for general surgery

Description:	Rapidly assembled and dismantled, adjustable on uneven ground, without special tools. Mechanically adjustable height. Mechanical decline and incline, and lateral tilting. Mechanically adjustable inclinations: - Maximum decline: 35° - Maximum incline: 30° Maximum lateral tilt: 20° Crankshaft permits minute adjustment to the table. Radiotranslucent, permitting X-rays.
Size:	Total length: 1.90m
Overall width:	0.515m
Section widths:	0.475m
Height:	0.75 to 1m
Total weight including accessories:	80kg
Unit presentation:	1 complete table, dismantled, protected in transparent plastic; includes the required accessories for general, abdominal and perineal surgeries (refer to accessories list above).
Packaging:	Packed in a wooden box, fixed to base for safe transport, includes assembly instruction: English, French and Spanish.
Labelling:	- Designation of item. - Name and address of supplier (manufacturer). - Serial number.
Other:	Quality complies with <i>Medical Device Directive 93/42/ EEC</i>

	<p>4 sections:</p> <ul style="list-style-type: none"> - Headrest: Length: 0.34m Incline: 90° to +60° - Backrest: Length: 0.55m Incline: -50° to +80° - Seat section, fixed: length: 0.44m - Leg extension: Length: 0.57m Incline: -90° to +30°
<p>Section frames: formed from a plastic sandwich board and anodised aluminium, X-ray permeable, unbreakable, insensitive to climatic conditions, 6mm thickness, and 30x40cm dimension. Includes 4 antistatic, X-ray permeable cushions, 30mm thickness made from black lectrolite material.</p>	

- Table base has 4 adjustable jacks on large metallic runners for ease of adjust on uneven ground.

Material: satinized stainless steel, lightweight anodised steel alloy, anticorrosion treatment: phosphatised, coated with anti-chip paint.

NOTE: Solutions with high chlorine concentrations, used for cleaning, can erode the frame's surface and lead to rusting.

Each table is delivered equipped with the following accessories:

1	XSEQTAOPS8R	ROD and infusion stand with 2 hooks	Manufacturer Ref
2	XSEQTAOPS8S	Anaesthesia screen, flexible	TAB005
3	XSEQTAOPS8H	Shoulder supports; cylindrical, padded, 1 pair	45210
4	XSEQTAOPS8A	Sliding clamps, to hold accessories, 10 pieces	45310
5	XSEQTAOPS8W	WRISTLETS, padded, 1 pair	45301
6	XSEQTAOPS8T	THIGH REST, padded, 1 pair	45601
6	XSEQTAOPS8L	LEG REST, with straps, 1 pair	45612
7	XSEQTAOPS8Y	INSTRUMENT TRAY, 500x400mm	TAB 281
8	XSEQTAOPS8A	ARM REST, padded, for infusion	45310
	XSEQTAOPS8I	SIDE REST, padded 1 pair	45401
	XSEQTAOPS8X	CASSETTE HOLDER, for X-ray films	TAB 231 C
